DATASCAN
Pharmacy Software since 1981

Built for Independent Pharmacy.

45+ YEARS

In Business — Still Independently Owned.

Datascan has been serving independent pharmacies since 1981 and is still owned by the second generation of the same family.

More than 20 clients for 40+ years!

Yes! We are still serving more than 20 clients who have been with us since our very first years in business. Our clients grow together with us through decades of industry changes.

Consistently a Leader in the Pharmacy Software Industry!

Datascan has consistently been ahead of its competitors for decades.

- One of the first Windows-based pharmacy management systems on the market.
- One of the first companies to offer a point of sale (POS) system that was built from scratch around pharmacy, for pharmacy.
- One of the first pharmacy systems on the market to build and offer a medication synchronization program built directly into the software (no need for 3rd party interfacing).
- The first company to build a pharmacy delivery system on the Android market, alleviating the costs from having to purchase iPads for delivery drivers.

4.9 OUT OF 5 STARS

★★★★★

Rated by pharmacy professionals on G2 and Capterra.

G2 **4.9/5** (31 reviews) | Capterra **4.9/5** (163 reviews)

Real reviews. Real pharmacies. Real experiences.

Ratings as of October 2026.

$0 Additional Module Fees

Many powerful tools are included with your Datascan system at no additional cost, including our mobile apps, delivery system, compounding, LTC, automation, document management and more.

20 Seconds or less average response time:

Support response times are the **FASTEST** in the industry. Inbound calls are answered on average in **20 seconds or less!**

** Data from phone system over last 12 months*

Only 9% of all calls waited beyond 2 minutes.

Just **9%** of our calls waited longer than 2 minutes before being answered.

** Data from phone system over last 12 months*

Nearly 100 3rd Party Vendor Integrations and Growing!

Connect with the tools and partners you choose. We continue to expand our integrations to bring you more options and flexibility.

80%+ Approved Feature Requests

More than 80% of our client ideas are approved as FREE feature requests that are added to our software. (Custom changes also available.)

Proven Return on Investment

When utilized to their full extent, our software systems pay for themselves, increase profits and lower operating costs. You can reduce staffing needs, raise prescription & refill counts, and grow your OTC business, all while watching over reimbursements.

Built for Independent Pharmacy.

Better Support. Better Technology. Better Pricing.
